

## What Do We Do?

School Choice Ohio educates families on the education options available for their children and advocates for the expansion of quality education options for every child.

## How Do We Do It?

Your child is one-of-a-kind, and so are we. School Choice Ohio is the only statewide organization that does what we do!

- **Inform** families about education options through calls, mail & email
- **Work** first-hand with Ohio's elected leaders
- **Organize** school choice supporters across Ohio to share their stories
- **Engage** Ohio families at community events

We're always here to help.
